

Hi-Force®

BPP - BATTERY POWERED HYDRAULIC PUMP

Working pressure 700 Bar

Lightweight design

14.4V long life battery

The Hi-Force BPP107 battery powered hydraulic pump is designed for operator convenience in terms of handling and power supply. Driven by a powerful 14.4V long life battery the unit takes away the physical effort required by a manually operated hand or foot pump, whilst at the same time eliminating the need for an external power source. The pumps ergonomic lightweight design (6.6 kg) also makes the unit very portable and user friendly for the operator with a handy shoulder strap supplied with the pump. The pump incorporates an automatic pressure relief and release valve meaning that the pressure automatically relieves once the pump reaches its maximum pressure of 700 Bar, making the pump ideal for use with Hi-Force CH series crimping tools, NS series Nut Splitters, HCH Cutters and HKP series knockout punchers.

The pump comes complete with a BP144 battery, CU220 220V/230V battery charger, and tool storage box.

Model number	Max working pressure	Oil Cap litres	Oil Flow lit/min		Weight kg	Dimensions in mm		
			1st stage	2nd stage		Length	Width	Height
BPP107	700 Bar	0.7	0.5	0.15	6.6	355	160	260

Note: CU220 Battery Charger is supplied with the tool as standard. If you require CU110 110 Volt battery charger (see below) then this needs to be ordered separately. Tools CANNOT be supplied without the standard CU220 charger as this is included in the tool set price.

ACCESSORIES

Model No	Description
BP144	Battery Pack 14.4V
Note: Charger supplied separately	

Model No	Description
CCU144	Car cigarette lighter charger unit

Model No	Description
CU110	Charger 110V
CU220	Charger 220/230V

Model No	Description
MP220	Power supply 220/230V to operate unit directly from mains
